

CALL FOR PAPERS

The Instituto Politécnico Nacional, through the Centro de Investigación en Computación, is honored to announce the 2026 edition of its CORE International Conference on Computer Science, which will take place from October 26th to 29th, 2026.

CORE disseminates, explores, and discusses new trends and advances in the areas of computer science and computer engineering.

Topics of interest:

- Cybersecurity and Networks
- Data Science and Software Technology
- Mathematical and Computational Sciences
- Intelligent Information Processing
- Geospatial
- Artificial Intelligence
- Natural Language Processing
- Computational and Information Sciences
- Quantum Physics
- Microtechnology and Embedded Systems
- Robotics and Mechatronics
- Intelligent Systems for Automation
- Other related fields in computing

You are invited to submit research articles in the topics listed above or related areas, that contribute to scientific advances, state of the art or that provide a systematization of knowledge (SoK), through the following guidelines.

Anonymous authorship. The initial submissions must not contain the identification of the author/s, or indications that allow its identification (blind review).

Established format and quality of the text. Articles submitted to CORE 2026 must follow the Springer format. Articles that do not meet this requirement will not be submitted for evaluation.

Send your papers. The articles will be sent through the Meteor system: https://meteor.springer.com/CORE_2026

Original Papers. Authors are required to submit original manuscripts that are not under review, or that have been previously published or accepted in some other journal or event.

Language. Articles must be written in English, with no page limits.

Reviewers. The papers will be submitted to review by specialists in the aforementioned areas in blind mode.

Publication. Accepted papers will be published in journals edited by Springer.
