## 2. History of CORE Congress

CORE Congress 2025 is a student-led event with a history marked by 25 previous editions. Its main objective is to provide students from different laboratories with a dedicated space for the analysis, discussion, and dissemination of their research and technological developments within the broader IPN community. This event has both national and international reach and has contributed to bringing the distinctive mark of the **Center for Computing Research (CIC) of the National Polytechnic Institute (IPN)** to other countries and states across Mexico.

## 3. Core Congress overview

This edition focuses on sustainability, highlighting how computational sciences, including Artificial Intelligence (AI) contribute to environmental protection and sustainable development.

The CORE2025 will be held in Person on 28-30 October 2025 in Mexico City. About 20 papers will be presented in oral sessions or in interactive poster sessions. Almost 300 participants are expected. Submitted two-page abstracts will be peer-reviewed, and after the review process, nearly 20 and 35 papers will be selected for oral and interactive poster presentations, respectively. Full papers are required to be submitted for all the accepted papers.
